## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Deborah S. Gladstein on 01/21/2005.
3. The application has been amended as follows:
  - a. In the claims:
    - i. In claim 2, line 4 of the claim "an numerical" has been replaced by "a numerical"
    - ii. In claim 4, line, 4 of the claim "an numerical" has been replaced by "a numerical"
    - iii. In claim 4, in the last two lines of the claim, "reproducing information from the first and the second signals" has been replaced by "reproducing the information by combining the first optical signals and the second optical signals"

*Allowable Subject Matter*

4. Claim 2-4 allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record teaches an apparatus for reproducing information stored in an optical recording medium, which comprises marks or pits, which are arranged at a pitch less than  $\lambda/2NA$ , which  $\lambda$  is a wavelength of light used for reproduction and NA is a numerical aperture of an objective lens. The prior art teaches having a first system for generally detecting optical signals from marks or pits, which are arranged at a **pitch not less than  $\lambda/2NA$**  and teaches a second system for detecting for generally detecting optical signals from marks or pits, which are arranged at a **pitch less than  $\lambda/2NA$** .

Applicant's claimed invention is deemed allowable over the prior art of record as the prior art fails to teach or suggest either alone or in combination a processing circuit for specifically, reproducing information by **combining the signals detected by the first detecting system with the signals detected by the second detecting system**.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
